Dr. Sandy Addis
Director
National Dropout Prevention Center

John Gailer
Assistant Director
National Dropout Prevention Center

The National Lessons Learned for K-12 Schools Conference provides opportunities for school and district teams to learn and work together on their local plan while being supported by expert practitioners, model programs and national thought leaders.

This conference provides participants with inspiration, research and practical strategies to implement change with a strand focused on supporting at-risk students. This strand is presented by the National Dropout Prevention Center and shares proven practices for engaging and supporting at-risk students, including trauma-impacted students.
