

# The 15 Effective Strategies for Dropout Prevention online courses

## Educational Technology

You are now enrolled in **Educational Technology**, one of the *15 Effective Strategies for Dropout Prevention* online courses.

Educational technology as a tool in providing relevant and engaging student instruction can build a captive audience and keep students in school. Also a tool in preparing students for future college and career, educational technology utilized to support deeper thinking and more complex reasoning encourages student buy-in to education. Learn more about how educational technology can be utilized as an engagement tool in the classroom.

This online professional development course is part of the *15 Effective Strategies for Dropout Prevention* online courses, designed to explore one particular strategy in a self-paced online platform. Other courses are available.
