

INSTRUCTIONAL EXCELLENCE

SOLUTIONS BLUEPRINT

The Rigor-Relevance-Resilience™ Learning Model

As the world around us rapidly evolves, schools must prepare students for their future—not for our past. Students need to experience instruction that is academically rigorous, relevant to their future, and equips them with the resilience skills necessary to thrive beyond school.

This Solutions Blueprint offers a look into SPN's Rigor-Relevance-Resilience™ Learning Model, a framework to help educators employ instructional strategies that provide students with the skills, knowledge, and dispositions they will need to succeed after graduation.
